## FIXING A SCHEDULE

LAWYERS ARRANGING DATES FOR TERMS OF COURT.

## CUTTING OUT A COUNTY

**Legislative Enactment Proposed to Reduce Size of Judicial Circuit Necessitates Much Figuring.**

A meeting is being held today at the Robidoux hotel in St. Joseph of the lawyers of Nodaway, Atchison, Worth and Gentry counties for the purpose of arranging the terms of circuit court in each county. Judge W. C. Ellison, judge of this judicial circuit is attending the meeting.

An effort is being made to reduce the size of this judicial circuit by leaving Holt county out. In case this is done the circuit would be composed of Nodaway, Atchison, Gentry and Worth.

The change in this district will come up before the legislature, which is now in session at Jefferson City, and it is necessary to incorporate in the bill when each term of court will be held in each county in the new district.

Nearly all of the lawyers over the circuit are greatly in favor of the proposed change, as is also Judge Ellison. As it is now, the circuit is entirely too large.

It will probably take some compromising to arrange these terms of court in these counties to suit everyone. In Nodaway county there are three terms of court a year, the February term, the June term and the November term. The bar here are in favor of the February and November term, but would like to see the June term put over in September or October, then have the next term in January or February, and the next in April or May. At the June term there is practically no court, as it is a very busy time for the farmers, and no jury cases are tried at that term.

### UNDER HALF OF STATE.

**Important Coal Beds Occur in Northern and Western Parts of State.**

Annual production over 4,000,000 tons.

Missouri contains billions of tons of minable coal and has produced more than 110,000,000 tons since mining was first started, in a primitive way, in 1840. From an insignificant beginning in the early days, when the settlers stripped the beds for local use, the industry has developed rapidly until today Missouri produces annually more than 4,000,000 tons, valued at $7,000,000.

The importance of the industry and the extent of the various coal seams is well shown in a complete report just issued by the Missouri geological survey. This is the first detailed report of the coal fields that has ever been issued and the work has constituted one of the chief investigations of the bureau during the past two years.

The volume, which consists of over 500 pages, contains geological maps showing the distribution of the coal measures throughout the northern and western half of the state, as well as maps showing the detailed geology of the most productive mining regions.

The geology of the coal measures is discussed briefly and the relative value of the output of the different beds is shown. The various productive seams vary from eighteen inches to five feet in thickness. The Lexington bed, which has a thickness of from eighteen to twenty inches, is one of the largest producers in the state and is one of the thinnest beds mined in the United States at the present time. It is a high grade coal. Several of the beds extend from the Iowa to the Kansas state line.

A large part of the report is devoted to a description of the coal deposits of each county. The thickness and nature of each bed, its relations to other seams, and its depth beneath the surface is indicated. The location of all mines and pits are given, as well as mining condition of roof and floor. Drill records in each county show the nature of all strata, forming the most useful guides for future development. An important feature of the report is the discussion, under each county, of the depth below which it is useless to drill for coal. There is no coal below the Mississippi limestone and the depth of the formation is indicated in every county where the coal measures are found.

Accurate samples have been taken from the mines in each field and careful analyses have been made by standard methods. The heat units in every bed has been determined by methods that make the results comparable in every way with those issued by the government bureaus.

Rough estimates have been made covering the original tonnage of coal in each county. These estimates cover beds of fourteen inches or more in thickness. Such beds are not being mined at present in Missouri, but they constitute an important future reserve—as the more available deposits are worked out.

This is one of the most detailed and valuable reports yet issued by the Missouri geological survey, and it should be in the hands of every land owner and citizen interested in the coal industry. It can be obtained by addressing H. A. Buehler, state geologist, Rolla, Mo., enclosing 35c to cover transportation charges.

## DIVORCE GRANTED

COMPROMISE MADE SHORT WORK IN GLOVER CASE.

## ONLY EIGHT WITNESSES

**Rumor Has Fixed $2,000 as Consideration Which Brought Quick Termination to Sensational Suit.**

The divorce case of James A. Glover vs. Minnie Glover was brought to a sudden close this Thursday afternoon in circuit court before Judge Arch B. Davis of Chillicothe, sitting as special judge.

It was given out that the differences as to property rights in Mr. Glover's land and Mrs. Glover's land was settled by agreement, and a cash consideration made by Mr. Glover to Mrs. Glover for her equity in the land, after several conferences between the attorneys and the parties. It was rumored that the cash consideration was $2,000 paid by Mrs. Glover, but the attorneys for both the plaintiff and the defendants refused to state what the consideration was.

When the case was called into court this afternoon eight witnesses were put on the stand by the plaintiff's side, and the defendant defaulted, so the court granted a divorce to James Glover from Minnie Glover. The plaintiff will have to pay the court costs.

There were many witnesses in the divorce suit who came from Burlington Junction, and they were all here Thursday.

### THROUGH A WEEK'S PRACTICE.

**Normal Basket Ball Team Preparing for the Game With Wesleyan College.**

Coach V. I. Moore has been putting the Normal basket ball squad through a hard week's practice in preparation for the game Friday at the local gym with the Missouri Wesleyan college five of Cameron.

The game is to be played under the intercollegiate rules, and although the green and white warriors are not taking up very readily with these rulings, which are new to them, Coach Moore is quite optimistic as to the outcome of the contest. The Methodists defeated the Normal last Saturday night at Cameron by a count of 44 to 29. The visitors will arrive in Maryville Friday afternoon from Tarkio, where they tangle with Tarkio college Thursday night.

Almost every student in the school turned out to the mass meeting held Thursday morning in the gymnasium, and if the enthusiasm of the rooters is any indication of the success of the team, the Normal should defeat Wesleyan by a safe margin.

## What Happened 43 Years Ago

**Interesting Items Taken From The Democrat Files.**

Mr. A. Cameron, who lives eight miles west of town, in coming in yesterday, counted one hundred and twenty-five horses. Three years ago twenty-five could not have been counted between here and Mr. C.'s.

* * *

The cold weather does not deter our enterprising citizens from building as at the present time quite a number of houses are going up and many are preparing to build in the spring. Last week several parties were here who want to go into business in the spring, but could get no houses, and were compelled to go elsewhere to go into business. During the year 1869, 120 houses were built, and the present year, judging from present indications, there will be double that number built. Surely, what a town Maryville has gotten to be.

It is remarkable, the energy and vigor that a railroad infuses into a place that has never known anything about them. We have a striking illustration of this in the short time that Messrs. Couch & Shoemaker have built their hotel at the depot which is now finished, except plastering, and all completed in eight days; also a large livery stable. The hotel is three stories high and 35x50 feet. The house will be opened in a few days and will receive a liberal patranage.

Julius O. Saunders of Nodaway, died on December 23, 1869, in the 66th year of his age.

A delegation composed of W. A. Jones, A. Royal, I. V. McMillan and S. McFarland returned from St. Louis, where they met the directors of the Chillicothe & Omaha railroad company. This enterprise has received liberal assistance in every county along its line from Chillicothe to Nodaway county, and that if Nodaway will but render such aid by way of subscription as the enterprise merits, this road will be completed with the cars runing thereon to the center of Nodaway county within three years. This is all the time this company ask—when in fact they represent that if assisted by our county, they will have the road graded to our county line within one year from this time—this road must and will be built, and it but remains for this county to say whether by their aid, they will render this line of road tributary to its interest, or leave it an open question, and to be secured by a more liberal and energetic community.

## VERY KIND TO HER

BUT SUSIE'S HUSBAND HAS GONE ON TRIP TO KANSAS.

## HAD SHORT HONEYMOON

**The Varying Tales Told by Bride Would Indicate Her Married Happiness, Though Short, is Over.**

Susie McLaughlin Smith, the girl of the county infirmary who was married Monday evening, January 13, at the home of Mr. and Mrs. H. Edwards in this city, to Rev. Wm. Smith of St. Joseph, returned to Maryville Wednesday night to get her trunk, which is at the county farm.

When she got off the train at the Burlington, she asked the bus man to take her to Mr. and Mrs. Edwards' home. Her arrival was quite a surprise to the Edwards family. Mrs. Edwards, not wishing to send the simple minded girl away, told her she could remain for the night. Mrs. Edwards questioned her closely about her visit to Maryville at this time, and found that Smith had given his wife just enough money to get to Maryville, although he said she was to return to St. Joseph on the Thursday evening's train.

She told several varying stories to Mrs. Edwards. First, that she had come for her trunk; second, that her husband had sent her back to be treated by some doctor for her cough, which she said made him uneasy about her. Then she said: "My husband was compelled to go to Kansas on a business trip; that he had bought a restaurant in St. Joseph, at 'Francis Sixth street,' and that he was also hunting a new location and would settle in Springfield or Colorado or Nebraska or Hayfield Warden."

The woman seems to have unbounded confidence in the man who married her two weeks ago, but it is believed by the superintendent and his wife at the county infirmary and others who have talked with her that he has chosen this way to rid himself of her and has left the country.

In talking to a Democrat-Forum reporter Thursday morning, Susie said that he was the kindest man she ever saw, and that he had the nicest children she ever saw. There are two grown sons at home, one 25 and the other 18, she said, and two girls, 11 and 9 years old, and there is a married daughter, who lives near her father's home. In speaking of the family, which she did often, she said:

"They think a sight of me and I think just as much of them. I have a good home and the best folks in the world to live with. They are just awfully good to me."

Susie Smith said that her husband went to Kansas City Wednesday morning and that he did not know how soon he would be back from his business trip over in Kansas.

Superintendent Brummitt of the county farm brought in her trunk and gave her money enough to return to St. Joseph. It would take an order from the county court for Susie to gain entrance again to the county farm.

A marriage license was issued Wednesday in St. Joseph to Edwin P. Herndon of St. Joseph and Ollie King of Barnard.

## RECEIVER TO BE NAMED

**Affairs of Iowa Security Company in the Hands of the Court.**

Council Bluffs, Ia., Jan. 30.—With an order consigning the books of the Iowa Security company to the custody of the district court, coupled with the injunction that no person should be permitted to see them, Judge Thornell said he would appoint a receiver for the company.

The features of the hearing of the application of Victor P. Laustrup, one of the stockholders, who asked for a receiver to wind up the affairs of the company, was the strong language used by Attorney Hess, counsel for Laustrup. He characterized the conduct of the business as being a type that "would make the Mabray gang look like amateurs." Another feature was the amendment of the petition of the plaintiff, by which Albert E. Stocker of Nebraska City joined Laustrup as plaintiff.

The nuptials were solemnized at the residence of the bride's parents, 14 Washington terrace, at 8 o'clock. Mr. Warren T. Powell of Minneapolis was best man for Mr. Donnell, and Messrs. Tom K. The bride wore an exquisite gown of white satin, the long court train being fashioned of brocaded satin. Her veil was caught with a spray of orange blossoms and she carried a shower of orchids and ferns. Miss Helen Hays wore white charmeuse satin and point de Venice lace, and Miss Elizabeth Hays delicate pink charmeuse. Both young women carried large clusters of pink roses. **Surprise on Their Pastor.**

Rev. and Mrs. S. D. Harkness of the First Presbyterian church of this city were pleasantly surprised Wednesday by a company of country members of their congregation, who arrived at their home Wednesday morning and spent the day with them. They brought baskets filled with the best of good things to eat, and a regular banquet was spread at noon. The day was the first anniversary of Mr. Harkness' pastorate with the Maryville church, and the gathering was an expression of the appreciation of the pastor and his wife by their visitors. On last Sunday Rev. Harkness had expressed a wish that the auditorium of the church would be filled for the Wednesday evening prayer service, and said that he could wish nothing better to mark the close of his first year's work in our city. His wish was very near gratified, and many of the visitors who were there to spend the day with him remained for the evening service, while those who were compelled to go home returned for prayer meeting. The all-day visitors were Winfield Scott and family, Lawson Scott and family, Will Scott and family, Clark Scott and family, Robert Sawyers and family; J. W. Sawyers and family, T. M. C. Neff and family, Lawrence Gault and family, Thurman Dickerson and family, James Murray and family, J. J. **Met With Mrs. Stapler.**

The Women's Missionary society of the M. E. church, South, held one of the best meetings in its history on Wednesday afternoon at the home of Mrs. Henry Stapler, on North Main street. The officers for the ensuing year elected at the last meeting were installed, Mrs. H. K. Taylor acting as installing officer. They are as follows. Mrs. E. B. Sheldon, who succeeds herself as president; Mrs. M. A. Peery, first vice president; Mrs. N. F. Humber, second vice president; Mrs. E. W. Heideman, third vice president; Mrs. Thad Wilderman, fourth vice president; Mrs. Frank Mathis, recording secretary; Miss Eva Ashford, corresponding secretary; Mrs. J. J. Pyle, treasurer; Mrs. O. M. Woodard, agent for the Missionary Voice; Mrs. Stapler, leader for the missionary study class. Reports of the various officers were read during the business session, the treasurer's report showing especially good. The society is also supporting a missionary in China, who is Miss Bessie Combs of St. Joseph. The society also made plans for serving the banquet on the night of February 6, at the church when the Men's Fellowship club will be organized. At the close of the business session the afternoon's program was taken up. The devotional services being led by the president. A very excellent paper on "Christian Stewardship" was read by Mrs. J. J. Pyle, and the quiz on "What is Stewardship" was conducted by Mrs. H. K. Taylor, the discussion following being led by Miss Genevieve Wrightman and Mrs. N. F. Humber. Pledge cards were given to each one by Miss Ashford. During the afternoon several committees were appointed that enlisted for work every member of the society. ## LAXATIVE FOR OLD PEOPLE—"CASCARETS"

**What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—a 10-Cent Box Will Truly Amaze You.**

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

# TARIFF ON SHOES TO COME DOWN

## Underwood Refuses to Yield to Pleas of Manufacturers.

## HEARING ON LAST SCHEDULE.

**House Committee Takes Up Sundries in Payne-Aldrich Act—Hat Which Retails at $5 Made in Italy for Seventy Cents and Duty Is Forty Cents.**

Washington, Jan. 30.—An unsuccessful fight to have the house committee on ways and means retain the present tariff of 10 and 15 per cent ad valorem on boots and shoes occupied most of the session. Chairman Underwood of the committee flatly told the representatives of the wholesale and retail shoe industries of the country that the tariff now was prohibitive, that there was no revenue, and that retention of the present rates was impossible.

Questions of the committee indicated a sentiment favorable to a big drop in these rates.

Numerous spokesmen appeared for the various branches of the shoe business, national associations of the manufacturers, wholesalers and retailers and labor unions, all favoring the present duties. Mr. Underwood suggested that the final arbiter, the American people at the last election, had rendered a verdict for tariff for revenue instead of for protection, and that "you cannot expect us to write a protective tariff even of only 2 per cent."

**Shoe Manufacturer Protests.**

This foreshadowing of the Democratic policy of the coming extra session of congress came about in the examination of J. Franklin McElwain of Boston, head of a large shoe manufacturing company. Mr. McElwain protested that a drop to 2 per cent ad valorem would mean the abolition of the manufacturers' profits and that putting shoes on the free list gradually would result in wage reductions.

"Are you willing as a witness under oath," Mr. Underwood insisted, "to state that if we put shoes on the free list it is going to wipe out American competition with foreign shoes?"

Mr. McElwain hesitated and finally said: "No," adding, however, that workmen would be forced to accept less wages.

**High Retail Price Explained.**

While James Marshall, representing the fur felt hat industry, was arguing against the duty on raw material used in the fur felt hat industry, an attendant placed beside him a brown felt hat. It was Mr. Underwood's and the chairman asked the cost of producing that hat in Italy, where it was made.

Mr. Marshall said the hat could be manufactured in Italy for about 70 cents and that the duty amounted to about 40 cents. Mr. Underwood and the witness agreed that the hat cost about $5 at retail in the United States.

Marshall declared that the difference between the $1.10 represented by the cost of production and the duty and the selling price of $5 was absorbed by the retailer and the middleman.

A variety of articles were at issue in the hearing. They comprised the "sundries" schedule of the Payne-Aldrich tariff law, the fourteenth and last schedule of that act.

## PATTEN MUST STAND TRIAL

**Mandate Issued in Cotton Corner Case by Supreme Court.**

Washington, Jan. 30.—The supreme court granted the request of the department of justice for an immediate issue of the court's mandate in the Patten cotton corner case. The mandate is the official notification to the federal court of southern New York that the supreme court has reversed the New York court's holding that the indictments against James Patten, Eugene G. Scales, Frank B. Hayne and William P. Brown for alleged conspiracy to corner cotton did not state an offense under the Sherman anti-trust law. The mandate places the case before the lower court for trial.

**McKinley Elected Speaker.**

Springfield, Ill., Jan. 30.—The speakership deadlock in the lower house of the Illinois legislature was broken by the election of William McKinley (Dem.) of Chicago on the seventy sixth ballot. The deadlock has continued since Jan. 8, preventing the induction into office of the newly-elected Democratic state officers and balloting on the election of two United States senators. McKinley was elected by a combination of Democratic and Republican votes.

**Orange Inspector Made Ill.**

Chicago, Jan. 30.—Because he has had to "lick" so many sliced oranges recently to determine whether the cars of the fruit arriving in Chicago from California should be held because the oranges came from frost bitten groves, James McCarthy, inspector for the health department, is ill at his home. There were thirty-three cars of oranges reported to have arrived here, making a total of fifty-five cars none of which had been sold.

**Lincoln Memorial Plans Approved.**

# TWO MAJORITY FOR SENATE DEMOCRATS

## Election of Saulsbury Assures Party Control After March 4.

Washington, Jan. 30.—With the election of Willard Saulsbury as United States senator from Delaware, the Democratic strength in the next senate swung from the precarious figure of forty-eight, or exactly one-half of the senate, to the safer total of forty-nine, or a majority of two.

Mr. Saulsbury's election, added to the victory recently secured in Tennessee, assures the Democratic party absolute control of the senate after March 4.

The vote of Vice President Marshall would have been the deciding factor in any event, but the addition of another Democratic vote to the column gives the party leaders what they believe to be a safe margin for tariff and legislative action.

## DENIES GIRL SET FIRES

**Confession Forced by Police, a St Louis Minister Asserts.**

St. Louis, Jan. 30.—That severe third degree methods were used by the police to extract a confession, later repudiated, from Barbara Gladys Arnold that she had fired the Hotel Berlin Nov. 1, causing the death of three persons, was the testimony of the Rev. William J. Williamson, the sixteen-year-old nurse girl's former employer at the girl's trial on a charge of first degree arson in an alleged attempt to set fire to the Windermere hotel, Nov. 5. The minister said that he was present when Chief of Detectives Allender obtained the confession and that the detective asked the girl:

"You set fire to the Hotel Berlin didn't you?" or "you know you set fire to that hotel," more than forty times before she answered in the affirmative.

A few days later the girl denied she had caused the fire.

## JOHNSON TAKEN TO OTTUMWA

Burlington, Ia., Jan. 30.—Charles Johnson was taken to Ottumwa by Deputy Marshal Hardy on a federal warrant, charging him with violating the Mann white slave act.

**Threatens to Blow Up Kansas City.**

Kansas City, Jan. 30.—John Tailburg, a Danish laborer in a grading camp, threatened to destroy Kansas City unless $100,000 was immediately given to him. The threat was made in a letter, and after his arrest the man repeated it and said that he had access to all the dynamite in the camp.

"The Almighty has promised to aid," he said, when questioned how he would destroy the city. Tailburg complained that the city had failed to care for him when he was recently injured. His sanity is questioned.

**Insane Artist Ruins Famous Painting**

Moscow, Russia, Jan. 30.—An insane painter named Balasheff entered the Trietiakoff art gallery and slashed in pieces the famous painting by Repine representing Ivan the Terrible murdering his son with an iron staff. Balasheff is wealthy. He was apparently suffering from religious mania. He has been placed under observation.

**Would Open Olympic Games to All.**

# PRESIDENT TAFT ASSAILS DEMOCRATS

## Attacks Bill Proposing Independence of Philippines.

Washington, Jan. 30.—President Taft in his farewell speech to the Ohio society of Washington vigorously attacked the bill now pending in congress proposing autonomy and independence in eight years for the Philippines.

"Is it possible," asked the president, "that the Democratic party is going to reverse the policy that has vindicated itself by ten years' experience merely for the purpose of conforming to the cobwebbed planks of forgotten platforms? This issue has been relegated to the limbo of free silver or the narrow doctrine of states' rights."

Speaker Clark, who followed the president, declined to debate with him the Democratic policy of independence for the Philippines.

## SENSATION IN SEAL REPORT

**Federal Officials Charged With Conspiring With Pelagic Sealers.**

Washington, Jan. 30.—In a report on fur seal conditions at the Pribiloff islands the house committee, which conducted a wide investigation, indorsed a closed season of five years. President Taft recently asked to have a law to that effect repealed.

The committee reported that the North American Commercial company had violated the law by killing female seals and recommended that the attorney general proceed against the sureties for the company who subscribed to a bond of $500,000 for faithful fulfillment of its lease. The sureties were D. O. Mills and the late Senator Elkins. The committee charges that the lease was obtained by fraud, which consisted of the filing of a false affidavit by Isaac Liebes, president of the company, to the effect that neither he nor his associate, Herman Liebe, were engaged in pelagic sealing or any violation of law.

The committee sets out that Liebes and his associate were interested in the steamer J. Hamilton Lewis, outfitted "for the purpose of committing depredation on the high seas."

"Your committee finds," says the report, "that Isaac Liebes corresponded and agreed with H. H. D. Peirce, then third assistant secretary of the United States, and Charles Townsend, seal expert of the bureau of fisheries, in preparing and collecting a fraudulent claim for damages for the seizure of the Lewis by the Russian government."

## CARDUI WORKED LIKE A CHARM

**After Operation Failed to Help, Cardui Worked Like a Charm.**

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

# AUSTRIA AND RUSSIA AT OUTS

## Differ Over Proposed Limits of New State of Albania.

## CZAR TAKES SIDE OF SERVIA.

**Belief in Russia That Too Much Has Already Been Conceded — Foreign Office Hopes Austria Will Now Adopt Conciliatory Attitude.**

St. Petersburg, Jan. 30.—The present state of affairs between Russia and Austria is regarded here as extremely delicate. The war party is now in the saddle in Austria and Russia has 1,000,000 men serving with the colors.

The trouble is over the boundaries of Albania. As explained by a high diplomatic official, Russia has recognized in an agreement with Austria that the Turkish fortresses of Scutari and Janina belong to the future Albanian nation. The condition is to be imposed, however, that the military and economic interests of the adjacent Montenegrin and Greek populations be suitably guaranteed.

It is thought that this will be accomplished by dismantling the fortifications of the two cities and allowing the free passage of goods.

Russia, on the other hand, the diplomat declared, regards Prisrend, Jakesa and Ipek as belonging to Servia.

The position thus taken by Russia will enormously increase the difficulties of the Russian foreign office in coping with public opinion, which may regard the abandonment of Scutari and Janina as an unnecessary concession to Austria and a sacrifice of Slav interests.

The seriousness of the situation arises from the fear that Austria, by its success in this respect, may be encouraged to make further demands.

The Russian foreign office hopes, however, that Austria will now adopt a conciliatory attitude. The absence of any definite indication that it will do this is probably the reason why Russia has not taken any steps to reduce its army to its normal proportions in spite of several announcements from Vienna of the dismissal of reservists there.

## WOMEN ON HUNGER STRIKE

**General Drummond and Thirty Others Sent to Jail.**

London, Jan. 30.—"General" Mrs. Drummond and thirty other militant suffragettes will spend the next fourteen days in jail as the result of their determination to force David Lloyd-George, chancellor of the exchequer, to receive them in the house of commons.

All the prisoners declared after they were sentenced that they would start a "hunger strike." The accused women were brought up at Bow street police court before Robert Marsham, police magistrate.

Mrs. Drummond complained during the hearing that the police had handled her roughly when she was arrested. She declared a patrolman had thrown her in the mud.

"It is now war to the knife," she told the magistrate, and continued:

"You and Mr. Lloyd-George have a lot of trouble ahead of you. You will have to do the dirty work and you will have plenty of it."

The women all refused to pay a fine instead of going to prison.

## PEACE CONFERENCE IS ENDED

**Note Drawn Up by Allies Is Delivered to Turkish Envoys.**

London, Jan. 30.—The note drafted by the peace delegates of the allies was delivered by Stojan Novakovitch, head of the Servian delegation, to Rechad Pasha.

The factor impelling this action was the receipt of reports of grave ferment among the Turkish troops on the Tchatalja lines, many of whom appear to be unwilling to follow the lead of the young Turks.

It is considered here that in view of the internal complications in Turkey Mahmoud Sheket Pasha, the new grand vizier, may yield before the energetic act of the allies.

The gravity of the situation at Constantinople is shown by the large naval forces concentrated by the European powers at the entrance to the Dardanelles.

## SUFFRAGISTS HOLD MEETING

**Women Now Refuse to March in Wilson Inaugural Parade.**

Washington, Jan. 30.—Woman suffrage leaders held a street meeting to call upon President Taft to grant a holiday on March 3 to government clerks who want to participate in the suffragist parade. The committee in charge of the regular inaugural participation on March 4 has held out the olive branch to the suffragists by announcing that they might participate in the big pageant if they will ask for the opportunity. The women's leaders scorn the suggestion and will confine their marchers to their own parade on March 3.

## FIXING A SCHEDULE

LAWYERS ARRANGING DATES FOR TERMS OF COURT.

## CUTTING OUT A COUNTY

**Legislative Enactment Proposed to Reduce Size of Judicial Circuit Necessitates Much Figuring.**

A meeting is being held today at the Robidoux hotel in St. Joseph of the lawyers of Nodaway, Atchison, Worth and Gentry counties for the purpose of arranging the terms of circuit court in each county. Judge W. C. Ellison, judge of this judicial circuit is attending the meeting.

An effort is being made to reduce the size of this judicial circuit by leaving Holt county out. In case this is done the circuit would be composed of Nodaway, Atchison, Gentry and Worth.

The change in this district will come up before the legislature, which is now in session at Jefferson City, and it is necessary to incorporate in the bill when each term of court will be held in each county in the new district.

Nearly all of the lawyers over the circuit are greatly in favor of the proposed change, as is also Judge Ellison. As it is now, the circuit is entirely too large.

It will probably take some compromising to arrange these terms of court in these counties to suit everyone. In Nodaway county there are three terms of court a year, the February term, the June term and the November term. The bar here are in favor of the February and November term, but would like to see the June term put over in September or October, then have the next term in January or February, and the next in April or May. At the June term there is practically no court, as it is a very busy time for the farmers, and no jury cases are tried at that term.

### UNDER HALF OF STATE.

**Important Coal Beds Occur in Northern and Western Parts of State.**

Annual production over 4,000,000 tons.

Missouri contains billions of tons of minable coal and has produced more than 110,000,000 tons since mining was first started, in a primitive way, in 1840. From an insignificant beginning in the early days, when the settlers stripped the beds for local use, the industry has developed rapidly until today Missouri produces annually more than 4,000,000 tons, valued at $7,000,000.

The importance of the industry and the extent of the various coal seams is well shown in a complete report just issued by the Missouri geological survey. This is the first detailed report of the coal fields that has ever been issued and the work has constituted one of the chief investigations of the bureau during the past two years.

The volume, which consists of over 500 pages, contains geological maps showing the distribution of the coal measures throughout the northern and western half of the state, as well as maps showing the detailed geology of the most productive mining regions.

The geology of the coal measures is discussed briefly and the relative value of the output of the different beds is shown. The various productive seams vary from eighteen inches to five feet in thickness. The Lexington bed, which has a thickness of from eighteen to twenty inches, is one of the largest producers in the state and is one of the thinnest beds mined in the United States at the present time. It is a high grade coal. Several of the beds extend from the Iowa to the Kansas state line.

A large part of the report is devoted to a description of the coal deposits of each county. The thickness and nature of each bed, its relations to other seams, and its depth beneath the surface is indicated. The location of all mines and pits are given, as well as mining condition of roof and floor. Drill records in each county show the nature of all strata, forming the most useful guides for future development. An important feature of the report is the discussion, under each county, of the depth below which it is useless to drill for coal. There is no coal below the Mississippi limestone and the depth of the formation is indicated in every county where the coal measures are found.

Accurate samples have been taken from the mines in each field and careful analyses have been made by standard methods. The heat units in every bed has been determined by methods that make the results comparable in every way with those issued by the government bureaus.

Rough estimates have been made covering the original tonnage of coal in each county. These estimates cover beds of fourteen inches or more in thickness. Such beds are not being mined at present in Missouri, but they constitute an important future reserve—as the more available deposits are worked out.

This is one of the most detailed and valuable reports yet issued by the Missouri geological survey, and it should be in the hands of every land owner and citizen interested in the coal industry. It can be obtained by addressing H. A. Buehler, state geologist, Rolla, Mo., enclosing 35c to cover transportation charges.

## DIVORCE GRANTED

COMPROMISE MADE SHORT WORK IN GLOVER CASE.

## ONLY EIGHT WITNESSES

**Rumor Has Fixed $2,000 as Consideration Which Brought Quick Termination to Sensational Suit.**

The divorce case of James A. Glover vs. Minnie Glover was brought to a sudden close this Thursday afternoon in circuit court before Judge Arch B. Davis of Chillicothe, sitting as special judge.

It was given out that the differences as to property rights in Mr. Glover's land and Mrs. Glover's land was settled by agreement, and a cash consideration made by Mr. Glover to Mrs. Glover for her equity in the land, after several conferences between the attorneys and the parties. It was rumored that the cash consideration was $2,000 paid by Mrs. Glover, but the attorneys for both the plaintiff and the defendants refused to state what the consideration was.

When the case was called into court this afternoon eight witnesses were put on the stand by the plaintiff's side, and the defendant defaulted, so the court granted a divorce to James Glover from Minnie Glover. The plaintiff will have to pay the court costs.

There were many witnesses in the divorce suit who came from Burlington Junction, and they were all here Thursday.

### THROUGH A WEEK'S PRACTICE.

**Normal Basket Ball Team Preparing for the Game With Wesleyan College.**

Coach V. I. Moore has been putting the Normal basket ball squad through a hard week's practice in preparation for the game Friday at the local gym with the Missouri Wesleyan college five of Cameron.

The game is to be played under the intercollegiate rules, and although the green and white warriors are not taking up very readily with these rulings, which are new to them, Coach Moore is quite optimistic as to the outcome of the contest. The Methodists defeated the Normal last Saturday night at Cameron by a count of 44 to 29. The visitors will arrive in Maryville Friday afternoon from Tarkio, where they tangle with Tarkio college Thursday night.

Almost every student in the school turned out to the mass meeting held Thursday morning in the gymnasium, and if the enthusiasm of the rooters is any indication of the success of the team, the Normal should defeat Wesleyan by a safe margin.

### What Happened 43 Years Ago

**Interesting Items Taken From The Democrat Files.**

Mr. A. Cameron, who lives eight miles west of town, in coming in yesterday, counted one hundred and twenty-five horses. Three years ago twenty-five could not have been counted between here and Mr. C.'s.

* * *

The cold weather does not deter our enterprising citizens from building as at the present time quite a number of houses are going up and many are preparing to build in the spring. Last week several parties were here who want to go into business in the spring, but could get no houses, and were compelled to go elsewhere to go into business. During the year 1869, 120 houses were built, and the present year, judging from present indications, there will be double that number built. Surely, what a town Maryville has gotten to be.

It is remarkable, the energy and vigor that a railroad infuses into a place that has never known anything about them. We have a striking illustration of this in the short time that Messrs. Couch & Shoemaker have built their hotel at the depot which is now finished, except plastering, and all completed in eight days; also a large livery stable. The hotel is three stories high and 35x50 feet. The house will be opened in a few days and will receive a liberal patranage.

Julius O. Saunders of Nodaway, died on December 23, 1869, in the 66th year of his age.

* * *

A delegation composed of W. A. Jones, A. Royal, I. V. McMillan and S. McFarland returned from St. Louis, where they met the directors of the Chillicothe & Omaha railroad company. This enterprise has received liberal assistance in every county along its line from Chillicothe to Nodaway county, and that if Nodaway will but render such aid by way of subscription as the enterprise merits, this road will be completed with the cars runing thereon to the center of Nodaway county within three years. This is all the time this company ask—when in fact they represent that if assisted by our county, they will have the road graded to our county line within one year from this time—this road must and will be built, and it but remains for this county to say whether by their aid, they will render this line of road tributary to its interest, or leave it an open question, and to be secured by a more liberal and energetic community.

Mrs. J. E. Alexander, Jr., of Pickering came to Maryville Thursday morning to spend the day at the home of her parents, Mr. and Mrs. J. F. Gray, and to meet her sister, Mrs. C. L. Ellis of Starkweather, N. D., who is here on a visit.

## VERY KIND TO HER

BUT SUSIE'S HUSBAND HAS GONE ON TRIP TO KANSAS.

## HAD SHORT HONEYMOON

**The Varying Tales Told by Bride Would Indicate Her Married Happiness, Though Short, is Over.**

Susie McLaughlin Smith, the girl of the county infirmary who was married Monday evening, January 13, at the home of Mr. and Mrs. H. Edwards in this city, to Rev. Wm. Smith of St. Joseph, returned to Maryville Wednesday night to get her trunk, which is at the county farm.

When she got off the train at the Burlington, she asked the bus man to take her to Mr. and Mrs. Edwards' home. Her arrival was quite a surprise to the Edwards family. Mrs. Edwards, not wishing to send the simple minded girl away, told her she could remain for the night. Mrs. Edwards questioned her closely about her visit to Maryville at this time, and found that Smith had given his wife just enough money to get to Maryville, although he said she was to return to St. Joseph on the Thursday evening's train.

She told several varying stories to Mrs. Edwards. First, that she had come for her trunk; second, that her husband had sent her back to be treated by some doctor for her cough, which she said made him uneasy about her. Then she said: "My husband was compelled to go to Kansas on a business trip; that he had bought a restaurant in St. Joseph, at Francis Sixth street," and that he was also hunting a new location and would settle in Springfield or Colorado or Nebraska or Hayfield Warden."

The woman seems to have unbounded confidence in the man who married her two weeks ago, but it is believed by the superintendent and his wife at the county infirmary and others who have talked with her that he has chosen this way to rid himself of her and has left the country.

In talking to a Democrat-Forum reporter Thursday morning, Susie said that he was the kindest man she ever saw, and that he had the nicest children she ever saw. There are two grown sons at home, one 25 and the other 18, she said, and two girls, 11 and 9 years old, and there is a married daughter, who lives near her father's home. In speaking of the family, which she did often, she said:

"They think a sight of me and I think just as much of them. I have a good home and the best folks in the world to live with. They are just awfully good to me."

Susie Smith said that her husband went to Kansas City Wednesday morning and that he did not know how soon he would be back from his business trip over in Kansas.

Superintendent Brummitt of the county farm brought in her trunk and gave her money enough to return to St. Joseph. It would take an order from the county court for Susie to gain entrance again to the county farm.

A marriage license was issued Wednesday in St. Joseph to Edwin P. Herndon of St. Joseph and Ollie King of Barnard.

## RECEIVER TO BE NAMED

**Affairs of Iowa Security Company in the Hands of the Court.**

Council Bluffs, Ia., Jan. 30.—With an order consigning the books of the Iowa Security company to the custody of the district court, coupled with the injunction that no person should be permitted to see them, Judge Thornell said he would appoint a receiver for the company.

The features of the hearing of the application of Victor P. Laustrup, one of the stockholders, who asked for a receiver to wind up the affairs of the company, was the strong language used by Attorney Hess, counsel for Laustrup. He characterized the conduct of the business as being a type that "would make the Mabray gang look like amateurs." Another feature was the amendment of the petition of the plaintiff, by which Albert E. Stocker of Nebraska City joined Laustrup as plaintiff.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

**Forrest Donnell Married.**

Forrest Donnell, a son of Mr. and Mrs. J. C. Donnell, former residents of Maryville, and Miss Hilda Hays of St. Louis were married at the bride's home Wednesday evening. The following is an account from the St. Louis Times of the wedding:

A notably important wedding of the late winter season, which took place Wednesday evening was that of Miss Hilda Hays, daughter of Mr. and Mrs. Frank Perin Hays, and Mr. Forrest Donnell. The nuptials were solemnized at the residence of the bride's parents, 14 Washington terrace, at 8 o'clock. Mr. Warren T. Powell of Minneapolis was best man for Mr. Donnell, and Messrs. Tom K. Smith, J. Chambers Ely and Forrest Hays were groomsmen. The bride's sisters were her attendants. The bride wore an exquisite gown of white satin, the long court train being fashioned of brocaded satin. Her veil was caught with a spray of orange blossoms and she carried a shower of orchids and ferns. Miss Helen Hays wore white charmeuse satin and point de Venice lace, and Miss Elizabeth Hays delicate pink charmeuse. Both young women carried large clusters of pink roses. After a honeymoon trip to the south, Mr. Donnell and his bride will reside at the Buckingham in St. Louis.

**Surprise on Their Pastor.**

Rev. and Mrs. S. D. Harkness of the First Presbyterian church of this city were pleasantly surprised Wednesday by a company of country members of their congregation, who arrived at their home Wednesday morning and spent the day with them. They brought baskets filled with the best of good things to eat, and a regular banquet was spread at noon. The day was the first anniversary of Mr. Harkness' pastorate with the Maryville church, and the gathering was an expression of the appreciation of the pastor and his wife by their visitors. On last Sunday Rev. Harkness had expressed a wish that the auditorium of the church would be filled for the Wednesday evening prayer service, and said that he could wish nothing better to mark the close of his first year's work in our city. His wish was very near gratified, and many of the visitors who were there to spend the day with him remained for the evening service, while those who were compelled to go home returned for prayer meeting. The all-day visitors were Winfield Scott and family, Lawson Scott and family, Will Scott and family, Clark Scott and family, Robert Sawyers and family; J. W. Sawyers and family, T. M. C. Neff and family, Lawrence Gault and family, Thurman Dickerson and family, James Murray and family, J. J. Barr and family, Mrs. Leslie Giffin and family of Cadiz, O.; Miss Elizabeth Sawyers and Mr. Snyder and family.

**Met With Mrs. Stapler.**

The Women's Missionary society of the M. E. church, South, held one of the best meetings in its history on Wednesday afternoon at the home of Mrs. Henry Stapler, on North Main street. The officers for the ensuing year elected at the last meeting were installed, Mrs. H. K. Taylor acting as installing officer. They are as follows. Mrs. E. B. Sheldon, who succeeds herself as president; Mrs. M. A. Peery, first vice president; Mrs. N. F. Humber, second vice president; Mrs. E. W. Heideman, third vice president; Mrs. Thad Wilderman, fourth vice president; Mrs. Frank Mathis, recording secretary; Miss Eva Ashford, corresponding secretary; Mrs. J. J. Pyle, treasurer; Mrs. O. M. Woodard, agent for the Missionary Voice; Mrs. Stapler, leader for the missionary study class. Reports of the various officers were read during the business session, the treasurer's report showing especially good. The society is also supporting a missionary in China, who is Miss Bessie Combs of St. Joseph. The society also made plans for serving the banquet on the night of February 6, at the church when the Men's Fellowship club will be organized. At the close of the business session the afternoon's program was taken up. The devotional services being led by the president. A very excellent paper on "Christian Stewardship" was read by Mrs. J. J. Pyle, and the quiz on "What is Stewardship" was conducted by Mrs. H. K. Taylor, the discussion following being led by Miss Genevieve Wrightman and Mrs. N. F. Humber. Pledge cards were given to each one by Miss Ashford. During the afternoon several committees were appointed that enlisted for work every member of the society. There were four visitors, Mrs. Wrightman, Mrs. E. T. Funk, Mrs. John Awalt and Mrs. J. H. Porter. A pleasant social hour followed, the hostess serving luncheon and was assisted by her sister, Mrs. John Awalt, and Vilas Awalt. The next meeting will be held the last Wednesday in February at the home of Mrs. E. W. Heideman.

## LAXATIVE FOR OLD PEOPLE—"CASCARETS"

**What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—a 10-Cent Box Will Truly Amaze You.**

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

## TARIFF ON SHOES TO COME DOWN

### Underwood Refuses to Yield to Pleas of Manufacturers.

### HEARING ON LAST SCHEDULE.

**House Committee Takes Up Sundries in Payne-Aldrich Act—Hat Which Retails at $5 Made in Italy for Seventy Cents and Duty Is Forty Cents.**

Washington, Jan. 30.—An unsuccessful fight to have the house committee on ways and means retain the present tariff of 10 and 15 per cent ad valorem on boots and shoes occupied most of the session. Chairman Underwood of the committee flatly told the representatives of the wholesale and retail shoe industries of the country that the tariff now was prohibitive, that there was no revenue, and that retention of the present rates was impossible.

Questions of the committee indicated a sentiment favorable to a big drop in those rates.

Numerous spokesmen appeared for the various branches of the shoe business, national associations of the manufacturers, wholesalers and retailers and labor unions, all favoring the present duties. Mr. Underwood suggested that the final arbiter, the American people at the last election, had rendered a verdict for tariff for revenue instead of for protection, and that "you cannot expect us to write a protective tariff even of only 2 per cent."

**Shoe Manufacturer Protests.**

This foreshadowing of the Democratic policy of the coming extra session of congress came about in the examination of J. Franklin McElwain of Boston, head of a large shoe manufacturing company. Mr. McElwain protested that a drop to 2 per cent ad valorem would mean the abolition of the manufacturers' profits and that putting shoes on the free list gradually would result in wage reductions.

"Are you willing as a witness under oath," Mr. Underwood insisted, "to state that if we put shoes on the free list it is going to wipe out American competition with foreign shoes?"

Mr. McElwain hesitated and finally said: "No," adding, however, that workmen would be forced to accept less wages.

**High Retail Price Explained.**

While James Marshall, representing the fur felt hat industry, was arguing against the duty on raw material used in the fur felt hat industry, an attendant placed beside him a brown felt hat. It was Mr. Underwood's and the chairman asked the cost of producing that hat in Italy, where it was made.

Mr. Marshall said the hat could be manufactured in Italy for about 70 cents and that the duty amounted to about 40 cents. Mr. Underwood and the witness agreed that the hat cost about $5 at retail in the United States.

Marshall declared that the difference between the $1.10 represented by the cost of production and the duty and the selling price of $5 was absorbed by the retailer and the middleman.

A variety of articles were at issue in the hearing. They comprised the "sundries" schedule of the Payne-Aldrich tariff law, the fourteenth and last schedule of that act.

## PATTEN MUST STAND TRIAL

**Mandate Issued in Cotton Corner Case by Supreme Court.**

Washington, Jan. 30.—The supreme court granted the request of the department of justice for an immediate issue of the court's mandate in the Patten cotton corner case. The mandate is the official notification to the federal court of southern New York that the supreme court has reversed the New York court's holding that the indictments against James Patten, Eugene G. Scales, Frank B. Hayne and William P. Brown for alleged conspiracy to corner cotton did not state an offense under the Sherman anti-trust law. The mandate places the case before the lower court for trial.

**McKinley Elected Speaker.**

Springfield, Ill., Jan. 30.—The speakership deadlock in the lower house of the Illinois legislature was broken by the election of William McKinley (Dem.) of Chicago on the seventy sixth ballot. The deadlock has continued since Jan. 8, preventing the induction into office of the newly-elected Democratic state officers and balloting on the election of two United States senators. McKinley was elected by a combination of Democratic and Republican votes.

**Orange Inspector Made Ill.**

Chicago, Jan. 30.—Because he has had to "lick" so many sliced oranges recently to determine whether the cars of the fruit arriving in Chicago from California should be held because the oranges came from frost bitten groves, James McCarthy, inspector for the health department, is ill at his home. There were thirty-three cars of oranges reported to have arrived here, making a total of fifty-five cars, none of which had been sold.

**Lincoln Memorial Plans Approved.**

Washington, Jan. 30.—The house adopted the joint resolution approving plans of the fine arts committee for a $2,000,000 memorial to the memory of Abraham Lincoln in this city.

## TWO MAJORITY FOR SENATE DEMOCRATS

### Election of Saulsbury Assures Party Control After March 4.

Washington, Jan. 30.—With the election of Willard Saulsbury as United States senator from Delaware, the Democratic strength in the next senate swung from the precarious figure of forty-eight, or exactly one-half of the senate, to the safer total of forty-nine, or a majority of two.

Mr. Saulsbury's election, added to the victory recently secured in Tennessee, assures the Democratic party absolute control of the senate after March 4.

The vote of Vice President Marshall would have been the deciding factor in any event, but the addition of another Democratic vote to the column gives the party leaders what they believe to be a safe margin for tariff and legislative action.

## DENIES GIRL SET FIRES

**Confession Forced by Police, a St Louis Minister Asserts.**

St. Louis, Jan. 30.—That severe third degree methods were used by the police to extract a confession, later repudiated, from Barbara Gladys Arnold that she had fired the Hotel Berlin Nov. 1, causing the death of three persons, was the testimony of the Rev William J. Williamson, the sixteen-year-old nurse girl's former employer at the girl's trial on a charge of first degree arson in an alleged attempt to set fire to the Windermere hotel, Nov 5. The minister said that he was present when Chief of Detectives Allender obtained the confession and that the detective asked the girl:

"You set fire to the Hotel Berlin didn't you?" or "you know you set fire to that hotel," more than forty times before she answered in the affirmative.

A few days later the girl denied she had caused the fire.

## JOHNSON TAKEN TO OTTUMWA

**Wife Charges Husband With Violation of White Slave Act.**

Burlington, Ia., Jan. 30.—Charles Johnson was taken to Ottumwa by Deputy Marshal Hardy on a federal warrant, charging him with violating the Mann white slave act.

Johnson's wife had him arrested last week for desertion and he in turn had her arrested for adultery. She now charges that he had placed here in houses of ill repute in Peoria, Galesburg and Monmouth, Ill. Johnson is thirty years old and lives in Burlington.

**Threatens to Blow Up Kansas City.**

Kansas City, Jan. 30.—John Tailburg, a Danish laborer in a grading camp, threatened to destroy Kansas City unless $100,000 was immediately given to him. The threat was made in a letter, and after his arrest the man repeated it and said that he had access to all the dynamite in the camp.

"The Almighty has promised to aid," he said, when questioned how he would destroy the city. Tailburg complained that the city had failed to care for him when he was recently injured. His sanity is questioned.

**Insane Artist Ruins Famous Painting**

Moscow, Russia, Jan. 30.—An insane painter named Balasheff entered the Trietiakoff art gallery and slashed in pieces the famous painting by Repine representing Ivan the Terrible murdering his son with an iron staff. Balasheff is wealthy. He was apparently suffering from religious mania. He has been placed under observation.

**Would Open Olympic Games to All.**

London, Jan. 30.—At the annual dinner of the South London Harriers' club, President Willis, who said that the club was the pioneer in international athletics, made the startling proposal that the next Olympic games should be open to both amateurs and professionals.

## PRESIDENT TAFT ASSAILS DEMOCRATS

### Attacks Bill Proposing Independence of Philippines.

Washington, Jan. 30.—President Taft in his farewell speech to the Ohio society of Washington vigorously attacked the bill now pending in congress proposing autonomy and independence in eight years for the Philippines.

"Is it possible," asked the president, "that the Democratic party is going to reverse the policy that has vindicated itself by ten years' experience merely for the purpose of conforming to the cobwebbed planks of forgotten platforms? This issue has been relegated to the limbo of free silver or the narrow doctrine of states' rights."

Speaker Clark, who followed the president, declined to debate with him the Democratic policy of independence for the Philippines.

## SENSATION IN SEAL REPORT

**Federal Officials Charged With Conspiring With Pelagic Sealers.**

Washington, Jan. 30.—In a report on fur seal conditions at the Pribiloff islands the house committee, which conducted a wide investigation, indorsed a closed season of five years. President Taft recently asked to have a law to that effect repealed.

The committee reported that the North American Commercial company had violated the law by killing female seals and recommended that the attorney general proceed against the sureties for the company who subscribed to a bond of $500,000 for faithful fulfillment of its lease. The sureties were D. O. Mills and the late Senator Elkins. The committee charges that the lease was obtained by fraud, which consisted of the filing of a false affidavit by Isaac Liebes, president of the company, to the effect that neither he nor his associate, Herman Liebe, were engaged in pelagic sealing or any violation of law.

The committee sets out that Liebes and his associate were interested in the steamer J. Hamilton Lewis, outfitted "for the purpose of committing depredation on the high seas."

"Your committee finds," says the report, "that Isaac Liebes corresponded and agreed with H. H. D. Peirce, then third assistant secretary of the United States, and Charles Townsend, seal expert of the bureau of fisheries, in preparing and collecting a fraudulent claim for damages for the seizure of the Lewis by the Russian government."

# CLEANS THE HAIR AND MAKES IT BEAUTIFUL---25 CENT "DANDERINE"

**IN A FEW MOMENTS YOUR HAIR LOOKS SOFT, FLUFFY, LUSTROUS AND ABUNDANT—NO FALLING HAIR OR DANDRUFF.**

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advertisement.

# AUSTRIA AND RUSSIA AT OUTS

## Differ Over Proposed Limits of New State of Albania.

## CZAR TAKES SIDE OF SERVIA.

**Belief in Russia That Too Much Has Already Been Conceded—Foreign Office Hopes Austria Will Now Adopt Conciliatory Attitude.**

St. Petersburg, Jan. 30.—The present state of affairs between Russia and Austria is regarded here as extremely delicate. The war party is now in the saddle in Austria and Russia has 1,600,000 men serving with the colors.

The trouble is over the boundaries of Albania. As explained by a high diplomatic official, Russia has recognized in an agreement with Austria that the Turkish fortresses of Scutari and Janina belong to the future Albanian nation. The condition is to be imposed, however, that the military and economic interests of the adjacent Montenegrin and Greek populations be suitably guaranteed.

It is thought that this will be accomplished by dismantling the fortifications of the two cities and allowing the free passage of goods.

Russia, on the other hand, the diplomat declared, regards Prisrend, Jakesa and Ipek as belonging to Servia.

The position thus taken by Russia will enormously increase the difficulties of the Russian foreign office in coping with public opinion, which may regard the abandonment of Scutari and Janina as an unnecessary concession to Austria and a sacrifice of Slav interests.

The seriousness of the situation arises from the fear that Austria, by its success in this respect, may be encouraged to make further demands.

The Russian foreign office hopes, however, that Austria will now adopt a conciliatory attitude. The absence of any definite indication that it will do this is probably the reason why Russia has not taken any steps to reduce its army to its normal proportions in spite of several announcements from Vienna of the dismissal of reservists there.

# CARDUI WORKED LIKE A CHARM

**After Operation Failed to Help, Cardui Worked Like a Charm.**

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

Cardui worked like a charm."

There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles.

**Gold Stolen From Vessel's Safe.**

Madrid, Jan. 30.—A case of gold valued at $25,000 was stolen from the strong room of the German liner Cap Blanco on the voyage from Rio Janiero, according to dispatches from Vigo, Spain. The door of the strong room was opened by a duplicate key.

## WOMEN ON HUNGER STRIKE

**General Drummond and Thirty Others Sent to Jail.**

London, Jan. 30.—"General" Mrs. Drummond and thirty other militant suffragettes will spend the next fourteen days in jail as the result of their determination to force David Lloyd-George, chancellor of the exchequer, to receive them in the house of commons.

All the prisoners declared after they were sentenced that they would start a "hunger strike." The accused women were brought up at Bow street police court before Robert Marsham, police magistrate.

Mrs. Drummond complained during the hearing that the police had handled her roughly when she was arrested. She declared a patrolman had thrown her in the mud.

"It is now war to the knife," she told the magistrate, and continued:

"You and Mr. Lloyd-George have a lot of trouble ahead of you. You will have to do the dirty work and you will have plenty of it."

The women all refused to pay a fine instead of going to prison.

## PEACE CONFERENCE IS ENDED

**Note Drawn Up by Allies Is Delivered to Turkish Envoys.**

London, Jan. 30.—The note drafted by the peace delegates of the allies was delivered by Stojan Novakovitch, head of the Servian delegation, to Rechad Pasha.

The factor impelling this action was the receipt of reports of grave ferment among the Turkish troops on the Tchatalja lines, many of whom appear to be unwilling to follow the lead of the young Turks.

It is considered here that in view of the internal complications in Turkey Mahmoud Sheket Pasha, the new grand vizier, may yield before the energetic act of the allies

The gravity of the situation at Constantinople is shown by the large naval forces concentrated by the European powers at the entrance to the Dardanelles.

## SUFFRAGISTS HOLD MEETING

**Women Now Refuse to March in Wilson Inaugural Parade.**

Washington, Jan. 30.—Woman suffrage leaders held a street meeting to call upon President Taft to grant a holiday on March 3 to government clerks who want to participate in the suffragist parade. The committee in charge of the regular inaugural participation on March 4 has held out the olive branch to the suffragists by announcing that they might participate in the big pageant if they will ask for the opportunity. The women's leaders scorn the suggestion and will confine their marchers to their own parade on March 3.

**Taxicabs Collide on Chicago Boulevard**
